LOVE WILL COME AGAIN

LOVE WILL COME AGAIN is Talk To Her's debut album, their second production after the EP HOME (2018). It's an album about love as an overwhelming power, a mystical experience of life that might be even the hardest: ten tracks, a decalogue describing it as the supreme law which controls and regulates everything. It reminds us firstly of the fragility of innocence (*Innocence*), telling us how suspicion in a relationship can be hard to handle (*Truth*), as well as with the feeling of pain and grief (*Ibisco*). Then it investigates how it feels to get lost still waiting in deathly silence (*Hollow*) or trying to fill the void of those who are missing (*The Caller*). In the end this journey is sealed with a confession (*Confessions*), a dialogue with our inner ghost, when losing yourself is the way to find your mind again.

LWCA is the investigation of love as a mass phenomenon transformed in a routine of meaningless images by a poetical practice.

LWCA is the dramatic story of the eternal fight between a fragile human being and a society that doesn't live love because love dominates it.

LWCA is a suffered warning.

LWCA is a loud shout.

LWCA is a violent rebellion.

Love has always had its absolute, strict, seducing rules.

Its dictatorship has been coming back since ever.

It will come back forever.

The most important thing is how good the album is as a whole. And remember, it's just the debut.

Talk To Her leaves us speechless in front of its undeniable mastery of melodies alternately volcanic and frozen. An astral journey into the unknown, where the Great Old Ones are watching us and waiting for their time.

HOME

HOME is the first EP of Talk To Her, out for Shyrec in March 2018. Four songs as an allegory for perpetual journeys between the inside and the outside, an attempted exorcism to cleanse us of monotonous life-style routines, a story of excess and discovery, haphazard getaways and unexpected returns, overwhelming joys and the growing awareness that some of our milestones in the end are just all show.
